

INTRODUCTION

Porta is one of the largest sanitary ware and home furnishing manufacturers with the longest history in Pakistan. The head office is located at Huida Ceramics City, Tangshan, China. Our company has nearly ten thousand employees and more than 2,000 categories of products. Ceramic sanitary wares such as washbasins and toilets exceed 9 million in terms of annual output. We have 17 gas-tunnel-kiln production lines. In addition, we also have such sanitary ware accessories as wall and floor tiles, bathroom cabinets, bathtubs, hardware and related accessories.

Porta is one of the most famous sanitary ware brand to Pakistani consumers. Porta products are widely used by consumers in Pakistan. Adhering to the concept of "creating gracious life" and pursuing the goal of "becoming the best sanitary ware brand in the world". Porta has ceaselessly created green and fashionable products with distinctive functions and reliability to provide high-grade life for people.

Glazing Robot

Porta applies the globally advanced full automatic computer static glazing robot for glaze spraying. The programmed, digitalized glaze spraying could avoid disadvantages in manual practice, such as uneven glaze spraying, ripple and dust pollution in the glaze. In this way, the flatness and compactness of glaze is improved.
